Powerful District Library Management Made Easy.

**DESTINY DISTRICT IS IDEAL FOR YOUR LIBRARY!**

- Designed just for K-12
- One easy system, not many modules
- Learn it in minutes—not days!

## MANAGE YOUR LIBRARY YOUR WAY... WITH DESTINY.

### POWERFUL LIBRARY MANAGEMENT MADE EASY

Destiny gives you all the most powerful library management functions—circulation, cataloging, searching, reporting and management—in one easy-to-use solution that is installed at the district. Destiny is always as close as the nearest browser. Destiny offers many benefits for individual school libraries and districts.

**Destiny is the easiest, most convenient way to manage your library:**

- Gives you control over your library
- Easy circulation, cataloging and reporting
- One completely browser-based solution, not multiple modules to open and close
- Anytime, anywhere library access
- Designed just for K-12

### SPEND MORE TIME WORKING WITH STUDENTS AND LESS TIME FUSSING WITH COMPUTERS!

- **EASY:** Destiny's uncluttered screens put everything right where you need it. Learn it in minutes, not days.
- **TROUBLE-FREE:** No more software maintenance chores! Updates, backups and maintenance are handled at the district. And Destiny is SIF-compliant, so you'll save staff time wasted re-entering student data. (SIF Agent required).
- **TIME-SAVING:** Cataloging is a breeze with integrated, instant access to six million MARC records, plus Z39.50 client and server support.
- **FAIL-SAFE:** Destiny is district-tested for unmatched reliability. Keep the library open and circulating even if the network goes down.
- **FLEXIBLE:** Reports and functions conform to your needs.
- **POWERFUL:** Access more data, faster and more reliably. Gain access to your district's entire collection.

### MAKE RESOURCES EASY TO ACCESS, SAFE FOR STUDENTS, ALIGNED TO STATE STANDARDS FOR TEACHERS

- **ANYWHERE, ANYTIME:** Students, parents and teachers get home access to library resources.
- **STUDENT-FRIENDLY:** Choose from text-based or graphic-based searching for students of all ages and abilities.
- **CURRICULUM SUPPORT:** Categories, booklists and reading program support tie your library to the curriculum.
- **SUPPORTS STATE STANDARDS:** Help educators meet State Standards goals through standards matched to web sites and library materials.\*
- **AGE-APPROPRIATE:** Help students find age-appropriate web sites and library materials.\*
- **FIND MORE RESOURCES:** More efficient searching with combined access to your collection and online databases.\*
- **REDUCE TEXTBOOK LOSSES:** Destiny even helps manage textbook check-in and check-out. (Available for an additional fee).

\* Available as subscription services for an additional fee.

*Powerful District Library Management Made Easy.*

## **A CUSTOM FIT FOR YOUR LIBRARY. YOU CONTROL DESTINY. . .**

Just because Destiny is centralized doesn't mean it's a one-size-fits-all solution. You control and customize Destiny to your needs:

- Elementary, middle and high schools can select age-appropriate functionality for students.
- Each school can customize the screens.
- Choose options for older students and fluent readers or graphic-based screens for emerging readers, struggling readers and ESL students.
- Change the way Destiny looks by adding your own graphics—school mascot, slogan, whatever you choose.
- Customize to fit your school's individual circulation policies, holdings and reading programs.

## **EASY REPORT FUNCTIONS**

Destiny makes it a breeze to generate the reports you need:

- Create your own individualized reports.
- No special training or software required.
- Generate reports of library activity across the district.

Flexibility, convenience, power. The kind of quality you'd expect from Follett, the number one library management software in school libraries.

## **Fun to Use**

*"What's really great is the kids say the program is more interesting and fun to use."*

*Dan Ritchie  
Librarian and  
Project Manager  
Lake Washington  
School District  
Redmond, Washington*

## **Relieves Library Staff**

*"Destiny...sports the full complement of features expected in a modern library automation system... Libraries...can leverage web browsers and Internet connections. [Destiny] relieves school district IT personnel or library staff from much library automation support."*

*American Library  
Association, Smart  
Libraries*
